<ul> <li>Controller Manager</li> </ul>		R 4: Out 4

- 10. On the MIXDECK hardware itself:
  - Set both the left and right decks to USB-MIDI source mode
    - 1. Press SOURCE.
    - 2. Rotate the **PARAMATER** knob until the screen reads **<<SOURCE>> USB-MIDI**.
    - 3. Press the **PARAMATER** knob (like a button) to confirm your selection.
  - On the Mixer portion of the controller, set the CH1 source selector switch to PC.
  - Set the CH2 source selector switch to PC as well.
  - Set the CUE SOURCE selector switch to CH1/2.

You should be set up and ready to go. Remember to enable the CUE function by pressing the CUE button (shaped like a set of headphones) on each deck in the Trackor LE software.
