MIXDECK QUAD

UNIVERSAL 4-CHANNEL DJ SYSTEM

PERFORM WITH CD, MP3, USB, SOFTWARE, AND iPad

FOUR ON THE FLOOR: If you want to get people moving on the dance floor, the MIXDECK QUAD is a complete DJ system with 4 channel mixer that puts you in complete control at any event. Thanks to the integrated 4-channel mixer, you can cue and layer to your heart's content.

A POWERFUL SEQUEL: Based upon the popular MixDeck controller, the MIXDECK QUAD kicks it up a notch by adding support for core MIDI on the iPad, opening the world of Apps like Algoriddim's DJAY to your digital DJ rig. In addition we added a fully functional 4 channel digital/analog MIDI mixer, allowing total control of both the iPad and DJ software while mixing from CD, thumb drives, mics, or external sources.

PLAY ANYTHING : MIXDECK QUAD comes complete with Traktor LE software in Europe and Virtual DJ software in North and South America so from the moment you open the box and connect to your computer, you're spinning tracks digitally. In addition, you can play from virtually any kind of media with MIXDECK QUAD including CDs, MP3 CDs, USB Flash drives and of course, the iPad. BPM analysis and Tap Tempo ensure that you never miss a beat. With MIXDECK QUAD you can control your favorite MIDI software, with no timecode needed, using a simple USB connection.

On top of playing all kinds of music media, each one of MIXDECK QUAD's decks enables you to add flavor to your performances with integrated, beat-synced DSP effects that include chop, echo, filter, flanger, pan, and phaser. Each is completely adjustable and a dedicated wet-dry fader controls them all.

HIGH PERFORMANCE: There is so much you can do with MIXDECK QUAD because we jammed it full of world-class features like DSP effects with wet-dry fader, chop, echo, filter, flanger, pan and phaser. It also has smooth, fast, slot-loading drives with large, touch-sensitive illuminated platters so that the moment your fingers touch the platter, you know your performance is on.

MIXDECK QUAD gives you the ability to perform, mix, remix, and record with virtually any popular music media. Whether you play parties, clubs, events, or in a group, MIXDECK QUAD also gives you the freedom to DJ from nearly any source all in one unit, with the flexibility to add on and expand as much as you like.

FEATURES

- Complete system with CD/MP3/USB decks, mixer, computer audio and MIDI interface, and iPad core MIDI and audio support
- MIDI integration of decks and the mixer for controlling both computer software and iPad apps
