

FIT FOR SOUND

RACK-MOUNT MUSIC PLAYER FOR iPod

PRO-GRADE iPod SOUND DELIVERY FOR ANY APPLICATION. Fit For Sound delivers high performance audio playback and an Integrated Universal Dock for iPod in a rugged, 2U rack mount configuration. Whether you are a fitness instructor, gym owner, or installation professional servicing bars, restaurants, or large stadiums, Fit For Sound is the ideal rack-mounted solution for iPod music playback.

Fit For Sound was designed to meet the demanding needs of both small and large professional venues. Large, easy-to-read controls, RCA jacks and balanced, pro-grade XLR outputs make this the ultimate rack-mountable iPod-driven player.

The included MixMeister Express software takes the guesswork out of creating custom, beat-matched remixes for workout routines. MixMeister Express helps you:

- Create professional-quality mixes, with beat-matched transitions between songs that sound great
- Make a song slower or faster to achieve the tempo you need, without changing key
- Trim long songs down to size or remix short songs to make them last longer
- Add one-click special effects for even more fun ways to blend songs together
- Create a full-length mix CD and export your mix for iPod

FEATURES

- Large transport controls and selection wheel
- XLR balanced and RCA (x2) unbalanced outputs
- 19" rack-mountable design
- Infrared remote control with wrist strap and lanyard
- Large, easy-to-use navigation buttons
