

## iCDX

### PROFESSIONAL DIGITAL AUDIO PLAYER AND SOFTWARE CONTROLLER

**SEAMLESSLY PLAY MULTIPLE FORMATS AND CONTROL MULTIPLE DEVICES, INCLUDING iPod.** The iCDX enables you to access, manipulate and play all of your media from one powerful controller. With its built-in CD/Data DVD drive and USB ports for connecting external devices such as an iPod, USB flash drive, and hard drives, the iCDX provides a virtually infinite song selection.

The iCDX is the perfect interface to use with popular DJ software packages including CUE and Serato™. An ultrafast USB interface insures that all of your media responds instantly, no matter where it resides. With the iCDX, you're finally able to have all of your music under your fingertips.

### FEATURES

- USB connectivity allows access to USB flash drives and most MP3 players (Mass storage class FAT, HFS+ file formats only)
- External USB controller for compatible software, including CUE and Serato
- Large, touch-sensitive scratch wheel manipulates all media, not just CD, with 7 customizable settings
- Multi-function push knobs for selection of effect parameters, folders and songs
- Multi-function, backlit LCD screen displays BPM, CD text, MP3 ID tags, and file names
- 6 assignable buttons for seamless loops, samples, or hot cues
- Real time adjustable loop creates seamless mixes on the fly
- Integrated, beat-synced DSP effects include chop, echo, filter, flanger, pan and phaser
- Intuitive, dedicated Wet/Dry effects fader
- Choose and fade to new track without a second player
- ± 100% pitch range with full-range key lock
- Illuminated slot-load drive reads CDs/MP3 CDs/DATA DVDs
- Navigate through folders on MP3 drives and discs

\* Due to recent changes made by Apple Computer in their iPod hardware, the latest iPod production models may not be compatible with the Numark iCDX. Most dock mountable iPods manufactured prior to Fall 2006 remain compatible with the iCDX. Regrettably, there is no way to visually determine if a specific iPod model will function properly with the iCDX. iCDX users are encouraged to use any mass storage class compliant USB thumb drive, hard drive, external music player or dock mountable iPods manufactured prior to Fall 2006.
